

## **ZOOMOBILE RESERVATION INFORMATION**

N.E.W. Zoo

4418 Reforestation Road Green Bay, WI 54313

Phone: (920) 434-7040 ext. 102 ext. 102 Fax: (920) 434-4162

[www.newzoo.org](http://www.newzoo.org)

### **Types of Zoomobile Programs**

There are two different types of Zoomobile programs offered, a presentation and an exhibit table. The presentation style will last about 1 hour. There are many presentation themes to choose from or we can create one with your specific needs. The exhibit table style is with or without live animals and can be reserved for multiple hours. The exhibit table is set up so people can walk up at their own leisure and talk to zoo staff. Three or four animals will accompany both the presentation and the exhibit style programs.

### **Making a Reservation:**

The Zoomobile Reservation Form is available on-line at [www.newzoo.org](http://www.newzoo.org), in person at the NEW Zoo, or call (920) 434-7040 ext. 102 ext. 102 to register over the phone. Completed forms should be submitted online, dropped off, mailed or faxed to the zoo.

A confirmation invoice will be mailed, faxed, or e-mailed to you 5-7 business days after the submission of your registration form with the total price of your program. Please have a copy of this confirmation on the day of the visit.

### **Costs of Programs:**

All types of Zoomobile programs have the same cost per hour. The cost is \$150.00 for the first hour and \$50.00 for any additional hours when the program is located within Brown County limits. If the location is outside of Brown County, there is an additional fee of \$1.00 per mile traveled outside of the Brown County limits. Your total payment due will be posted on your confirmation invoice. Full payment must be received before the day of your Zoomobile and can be mailed, faxed, or dropped off at the NEW Zoo. Payments can be made with check or credit card (visa or mastercard).

### **Supplies needed for the zoo staff and animals:**

Please provide a table and shade for the zoo staff and animals. The zoo staff and animals will arrive in a large cargo van. Please make sure there is adequate parking close to the set up area.

## ZOO CLASS PROGRAMS

### Wisconsin State Standards:

All our education programs are developed according to the curriculum guidelines of Wisconsin's State Standards. Programs are approximately one hour in length and present 3 - 4 different animals. Students will have the opportunity to touch at least one animal.

### All ages

**Birthday Party-** Let the zoo join the fun and help ring in that special person's birthday. This program will focus on different types of animals and their favorite activities.

**Exhibit Table-** This table will have hands on biofacts for people to touch and live animals if you choose.

### Pre-School Zoo Classes

**Animal Discovery** – Fuzzy fur, smooth scales, and flying feathers will all be featured in this program which will provide enriching animal discovery through hands-on learning.

### K- 2<sup>nd</sup> Grades (Can be adapted for adult audiences)

**Animal Adventures** – Use your imagination and travel around the world with us. Meet some of the interesting animals that can be found in different lands and in your own backyard.

**Habitat Sweet Home** – What is a habitat? What do animals need to survive? Through up-close animal experiences, this program will explore different types of animal habitats and how animals are adapted for survival.

**Creatures Have Class** – How do you label a lemur or categorize a crocodile? Through up-close animal observations, students will learn how to classify animals into groups and gain an understanding of their basic survival needs.

### 3<sup>rd</sup> - 5<sup>th</sup> Grades (Can be adapted for adult audiences)

**Suitcase for Survival-** How can humans impact wild animals? Through the use of confiscated animal biofacts, students will explore the impact that the wildlife trade has on the delicate balance of natural ecosystems.

**Rainforest Rescue-** Tropical rainforests of the world are vanishing by the second and need your help! This program will investigate the challenges of today's rainforest environments through encounters with our tropical animal ambassadors.

**Edging Toward Extinction** – How do animals become endangered? What are zoos doing to save them? Join us as we investigate the causes and effects of endangered and extinct animals through face-to-face animal experiences and classroom discussions.

### 6 - 12<sup>th</sup> Grades (Can be adapted for adult audiences)

**Conservation Connection** – What does SSP mean? What role do zoos play in conservation? Through presentation and discussion, students will learn the role zoos play in wildlife conservation, and actions they can take to be effective environmental conservationists.

**Zoo Careers** – A summary of zoo careers and job requirements will be discussed, along with the present-day mission of zoos. This presentation will be tailored to meet the specific interests of your students. Questions and discussion will be encouraged.
